Redux

- Why Redux?
  - Complexity: mutation and asynchronicity
- What's Redux?
  - Single source of truth
  - State is read only
  - Changes are made with pure functions

React Native移动开发技术

React Native 高级特性

本节内容

- Native Module
- Redux
- Navigation

Native Module

- Bridge and Call Cycle

Native Module

- [Example](#)
  - [create module](#)
  - [register module](#)
  - callback to JS
    - [Promise](#)
    - [send event](#)
  - [invoke from JS](#)

Redux

Redux

- Redux vs Flux
  - Reducer composition
  - Server side rendering
  - Development experience
  - Ecosystem
  - Simplicity

Redux

- [Example](#)

Navigation

- Navigator
  - [Example](#)
- NavigationExperimental
